SUMMARY

Full-stack software engineer with five years of experience building AI security, data security, and third-party risk products. Delivers end-to-end features spanning data models, backend-for-frontend APIs, business logic, and user interfaces.

TECHNICAL SKILLS

Languages & Frameworks: TypeScript, JavaScript, Node.js, NestJS, React, Jest

Backend: REST APIs, microservices, Kafka, RabbitMQ, SDK development

Data: PostgreSQL, MongoDB, Redis, TypeORM, Mongoose

Engineering: system design, BFF architecture, data modeling, query optimization

EXPERIENCE

Cyera - AI and Data Security

Software Engineer - Tel Aviv, Israel | Jun 2025–Present

- Owned technical delivery of AI Assets from concept through standalone launch, including its asset catalog, polymorphic detail page, and security dashboard, with backend engineering, product, QA, and design.
- Built a polymorphic asset model and dispatcher-driven shared layouts, reducing the time to add new asset types from days to hours and allowing backend engineers to ship UI changes without frontend support.
- Built a graph orchestration layer that modeled relationships among AI agents, knowledge bases, and capabilities, defining the BFF response used to visualize asset connections and shaping the backend persistence schema.
- Reduced latency on a core platform page for large customers by 90%, from 5 seconds to 0.5 seconds, through query optimization.

Panorays - Third-Party Cyber Risk Management

Full-Stack Developer - Tel Aviv, Israel | Oct 2021–May 2025

- Cut runtime for a data-retrieval job across all customers from 11–12 minutes to 1.5 minutes by replacing batched API calls with a purpose-built endpoint, reducing database load and eliminating consumer-side aggregation and deduplication.
- Built a configurable risk-policy system adopted by more than 50% of customers, spanning data models, calculation logic, and a policy-management UI.

EDUCATION

Freie Universität Berlin

M.A., Near and Middle Eastern Studies, 2016–2018 | 94/100; full scholarship

Ben-Gurion University

Combined B.A., Psychology & Near and Middle Eastern Studies, 2013–2016 | 90/100; Departmental Excellence
